- (2) The 5G Business Internet Plans for Ultra-Wide Band self-setup service ("Service") provides Customer with access to the Verizon Wireless network. Unless Customer provides its own receiver/router subject to the terms below, Service will include a self-install 5G receiver/router (the "Verizon Internet Gateway") that Customer will use to connect to the Verizon Wireless network. Customer is responsible for following the setup and activation instructions provided with the Verizon Internet Gateway.
- (3) Compatible 5G-enabled receiver/router required (Verizon-provided or Customer-provided). If Customer supplies its own router, Customer is responsible for (i) ensuring that such router is compatible for use with 5G Business Internet; and (ii) any necessary installation or connection to the Verizon network. Customer should contact Customer's account representative to determine if a Customer-provided router is compatible
- (4) These plans are fixed location plans. Customer agrees to only use the Service at the qualified service address that Verizon approved at the time the Service was activated.
